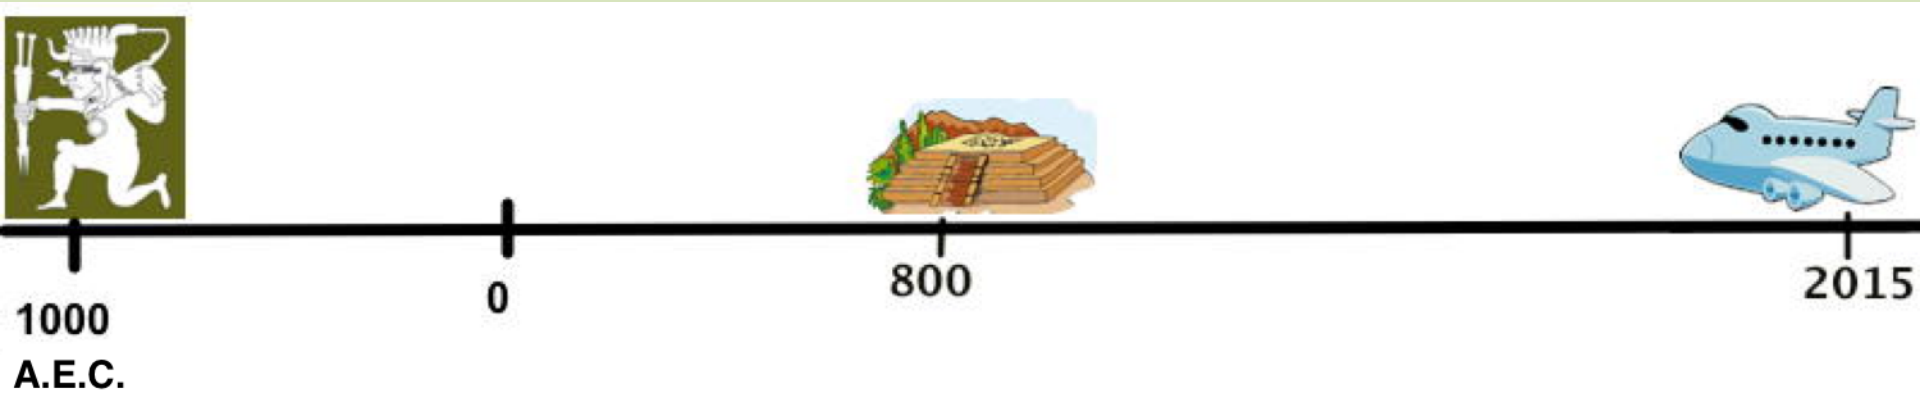
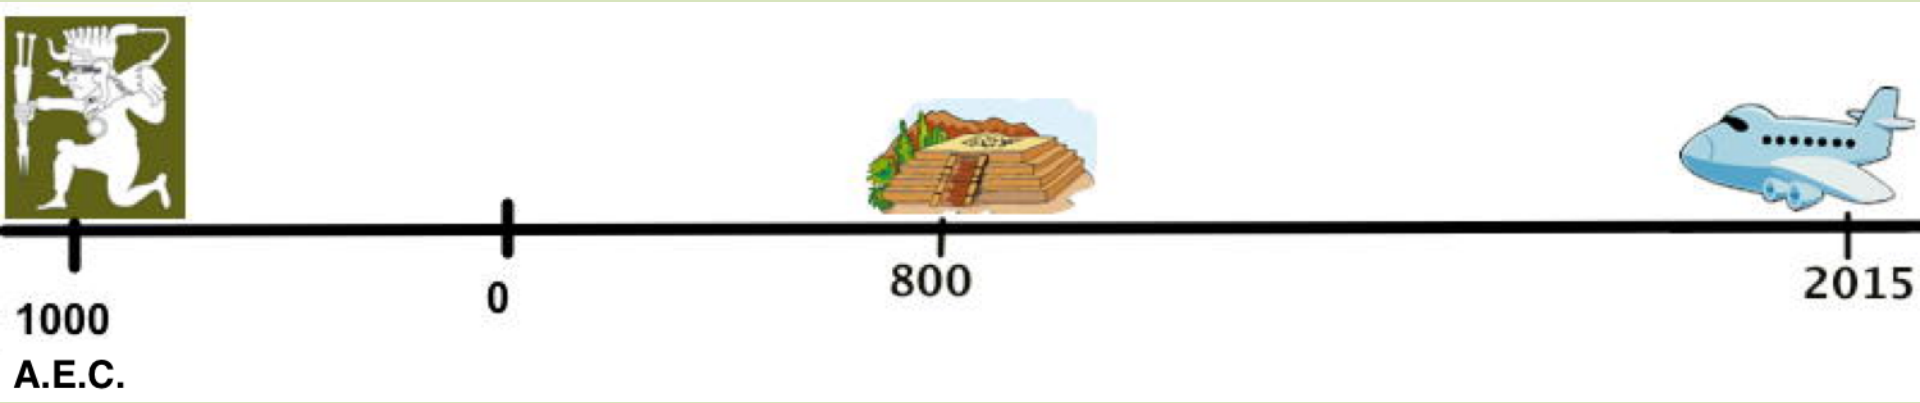
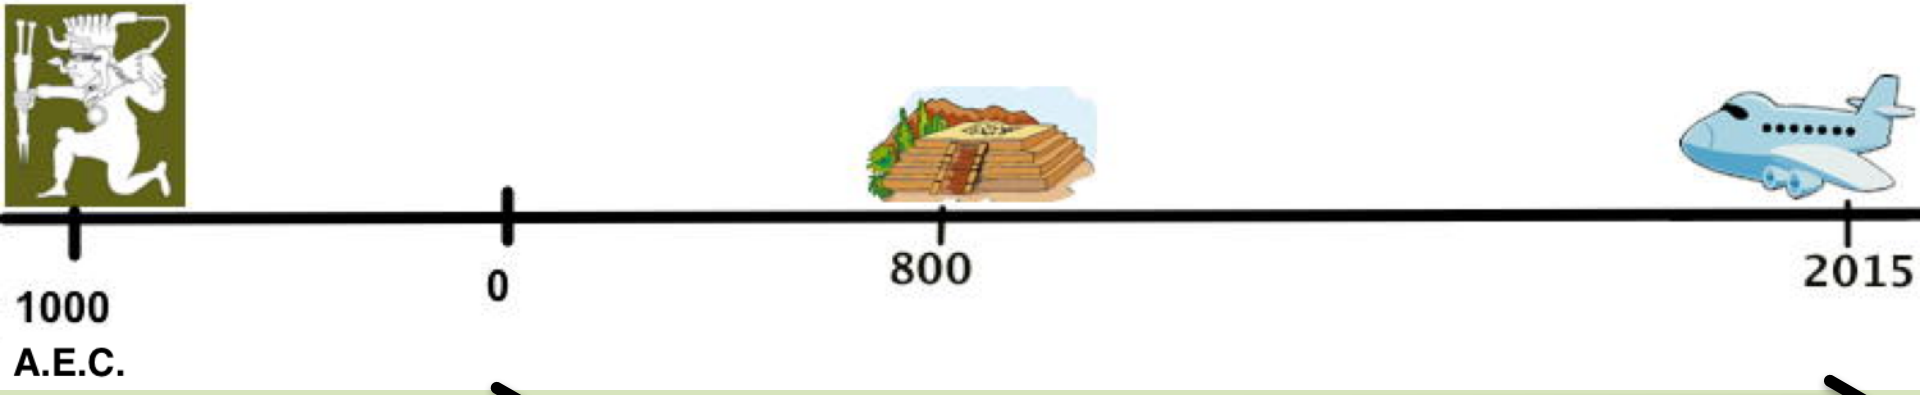
Cómo resolver el problema de la línea de tiempo





1. Calcular que lejos es de 1000 A.E.C. a 0
2. Calcular la distancia de 0 a 2015
3. Sumar esos dos números

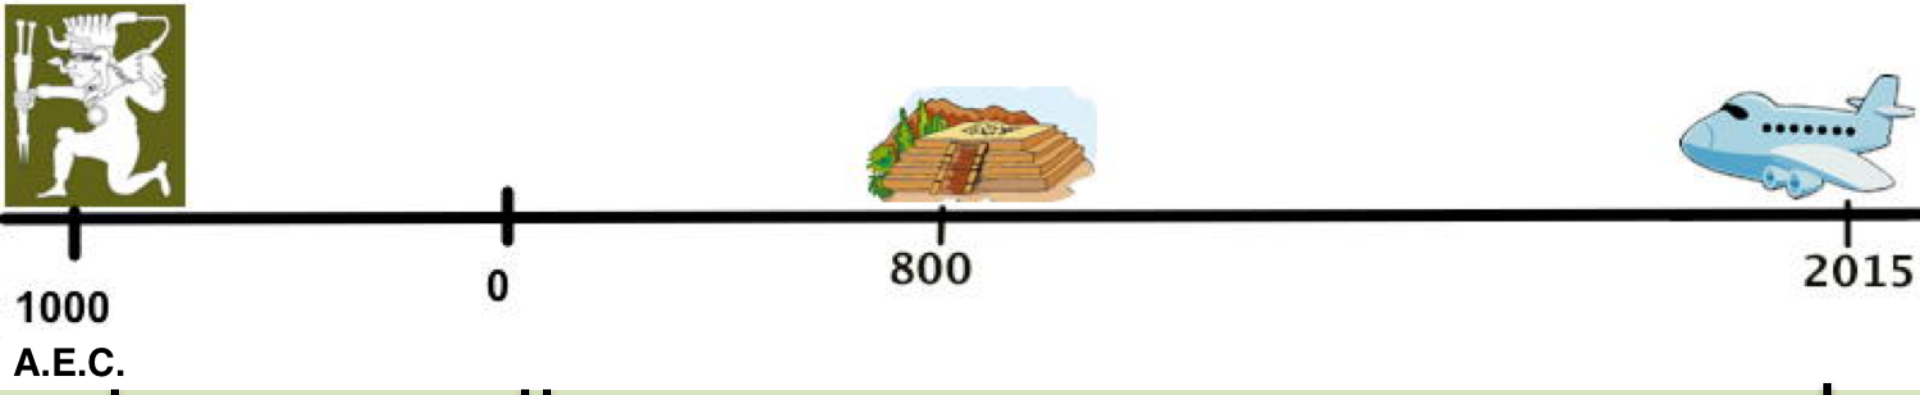


Primer paso

1,000

Segundo paso

2015



Primer paso **1,000** Segundo paso **2,015**

1,000
+ 2,015
?

Tercer paso
